Profile

Full Stack Odoo Developer with experience in customizing a wide range of modules, building custom modules, handling bug fixes, and performing frontend development tasks. Strong knowledge of Python and SQL, along with proficiency in Django and basic Data Science. Committed to delivering efficient, scalable solutions and continuously improving my technical expertise.

Education

- Eranad Knowledge City Technical Campus Manjeri**, BTech in Computer Engineering 2020 – 2024
- CGPA: 8.34 (View Certificate)
- HMYHSS Manjeri**, Higher Secondary Education 2017 – 2019
- CGPA: 9.3 (View Certificate)

Experience

- Odoo Developer**, Cybrsossys Technologies, Kakkanchery Apr 2025- Present
- Customized various existing Odoo modules and developed custom modules based on requirements.
 - Created PDF/XLSX reports using QWeb, XML, and SQL queries.
 - Worked with Odoo's MVC architecture: ORM models, XML views, and controllers.
 - Customized frontend using OWL with JS and XML improvements.
 - Collaborated with internal teams to convert requirements into solutions.
 - Set up and configured Odoo development environments (v16-v19).

Projects

- Recurring Subscription** [View Project](#)
- Built recurring subscription system with automated invoicing, online view, carousel, and PDF/XLSX reports.
- Hospital Management** [View Project](#)
- Developed module for appointments, labs, rooms, and billing.
- CRM Dashboard** [View Project](#)
- Built dynamic CRM dashboard with filters and real-time updates.
